

Smart Solutions To Keep You Moving!

The Ensign Tilter is designed to increase the efficiency of vacuum unloading Gaylords or other containers. The automatic tilting feature allows for the smooth and continuous flow of material to the vacuum wand with little or no assistance from your operator.

This unit will lift up to 800lbs at 80psi. However, the initial tilt weight can be set as required using the adjustable regulator.

Key features:

- Heavy duty welded steel construction
- Ground entry loading
- Firestone industrial air bag
- Parker pneumatic regulator
- Parker 3-position hand control valve
- 1" pillow block pivot bearings for smooth operation
- Vacuum wand holder
- Gaylord retainer
- Industry leading two year warranty on all parts and workmanship

See back page for additional options and specifications.
